

### California Proposition 65

Notes on handling the following regulation:

#### California Proposition 65 (CP 65) "Safe Drinking Water and Toxic Enforcement Act" (California Health & Safety Code Section 25249.6)

The above regulation applies to the delivery of products to and the use and processing of these products in California, USA, which come or may come into direct contact with people. It also regulates the declaration obligation for the goods on the basis of defined substances within the products. However, of the nearly 1,000 substances that are included in the substance list, limit values are defined for only approx. 250 of these. In contrast to the REACH regulation, there is no procedure to handle the smallest quantities such as impurities. Thus, for example, the presence of only 1 ppm of a substance without a defined limit value in the list leads to an obligation to declare. As a result of this inadequately defined situation, Frenzelit cannot, per se, declare compliance with the regulation for the products listed below.

The Frenzelit products listed here are REACH compliant. Therefore, we assume that these products can be classified as harmless to health when used as intended as a gasket or insulation material. Notwithstanding the above, the current version of CP 65 requires that the products include a warning label. In order to meet the requirements of CP 65, the distributor (generally the dealer or processor) of the Frenzelit products listed below must label them in accordance with CP 65 in the above-mentioned market (California, USA).

According to CP 65, the label must include a yellow warning triangle and the following sentences, depending on the relevant substances. The warning text must be the same size as other user information and not less than 6 (6-point type).

#### Cancer (c)

**⚠ WARNING:** This product can expose you to chemicals including [name of one or more chemicals], which is [are] known to the State of California to cause cancer.

#### Reproductive harm (r)

**⚠ WARNING:** This product can expose you to chemicals including [name of one or more chemicals], which is [are] known to the State of California to cause birth defects or other reproductive harm

## TechInfo 18

### Cancer und reproductive harm (c+r):

**⚠ WARNING:** This product can expose you to chemicals including [name of one or more chemicals], which is [are] known to the State of California to cause cancer, and [name of one or more chemicals], which is [are] known to the State of California to cause birth defects or other reproductive harm.

Further information at: [www.P65Warnings.ca.gov](http://www.P65Warnings.ca.gov).

### The required procedure refers to the following substances in products / product families:

Name of substance	silica (c)	toluene (r)	carbon disulfide (r)	bisphenol-A (r)	No CP65 substance
novapress	x	x			
novatec	x		x		
novaphit	x		x		
novamica	x		x		
novafon 100, 200, 300	x				
novafon 500					x
novaform (semifinished products/sheets)	x		x		
novaplan	x		x		
novaline	x	x			
isoplan	x		x		
Fertigteile mit FKM-Beschichtung				x	
Fertigteile mit Silikonbeschichtung					x
isoGLAS / isoTHERM					x
Formteile (alle Glasfasern)	x				

The above table is not a final overview! Please inquire separately for products that are not listed.

This information must be passed on along the entire supply chain.
