

texlam® 1500 - System solutions for safe connections

Frenzelit texlam® materials are multilam® 230 PTFE-laminate with fabric reinforcement, developed for heavy-duty applications.

Laminating the individual PTFE-layers crosswise and the PTFE-coated glass-fabric reinforcement ensures the high mechanical strength and the excellent tightness.

- Chemical resistance to nearly all media
- High mechanical strength
- Wide application range due to the possibility of one-layer or multi-layer manufacturing make up
- Application temperature up to 316 °C
- one-layer or multi-layer manufacturing

Applications

- Flue Gas Cleaning Process
- Chemical Industry
- Dryers
- Paper Industry
- Hosting & Conveying
- Food Industry
- Pharmaceutical Industry

We will be very pleased to send you our detailed quotation for your application and inform you about other products from our multilam® / texlam® range.
